

**Midway Rehabilitation Center Prison Rape Elimination Act  
2023 Annual Report**

Midway Rehabilitation Center has a zero-tolerance policy for all acts of sexual abuse and harassment. The Agency has established the Elimination and Reporting of Sexual Abuse and Harassment Policy and Procedures pursuant to the Prison Rape Elimination Act (PREA) Community Corrections Facility Standards, to prohibit and prevent sexual abuse and harassment and to detect, report, investigate, and address any allegation of abuse or harassment involving any adult in the custody of the Bureau of Prisons and residing at Midway Rehabilitation Center.

In 2003, President Bush signed the Prison Rape Elimination Act (PREA) into law. The Department of Justice (DOJ) developed national standards for implementation by federal, state, and local correctional organizations. The intended purpose of these standards was to provide comprehensive guidelines for preventing, detecting, and eliminating incidents of sexual abuse and harassment involving adult inmates and youth in detention and residential facilities. After public review and comment, the DOJ published final PREA Adult Community Correction standards which became effective on August 20, 2012, which mandated all federal operated residential facilities to comply with these standards.

This agency is committed to providing safe and secure environments for youth. Extensive efforts are taken to comprehensively investigate all reported allegations of sexual abuse and harassment. Allegations are reported to the Federal Bureau of Prisons, Knoxville Police Department, and East Tennessee Sexual Assault Center of East Tennessee. Management teams are required to review all investigations to determine the need for corrective actions, which may include policy and procedure modifications, staff and/or adult discipline. Pursuant to PREA Adult Community Confinement Standards §115.287 and §115.288, Midway Rehabilitation Center is mandated to collect data for each allegation of sexual abuse occurring in its facilities. This data must include, at a minimum, the data required to answer all questions from the most recent version of the Survey of Sexual Victimization conducted by the Department of Justice Bureau of Statistics. The agency has redacted specific material from publication such as personal identifying information and information that would present a clear and specific threat to the safety and security of the agency's facilities.

This report presents the DOJ Survey of Sexual Victimization data for calendar years 2023 Data is categorized in the following areas.
